

# SYMMETRICAL INTERNET SPEEDS

**ONE SPEED,  
BOTH WAYS!**

LHTC Broadband gives the ultimate online experience by providing symmetrical speeds!

## Download Speed

**How fast data travels from the Internet to your devices.**

Powerful download speeds allow your devices to:

- Download files faster
- Load webpages in milliseconds
- Stream music and video seamlessly and without buffering
- Game with ease
- Scrolling/Watching Social Media/Youtube without lag

Essential For:

- Video & Streamers
- Gamers
- Social Media Lovers
- Online Shoppers
- Music Enthusiasts

Most broadband providers prioritize offering fast download speeds....

...with their upload speeds often being less than 1/10th of their download speeds.

## Upload Speed

**Measures how quickly your devices can send data to the Internet.**

You need fast upload speeds for:

- Video security camera like the Ring or Nest doorbell
- Live video meetings like Zoom & Teams
- Sharing large files (Google Drive, Dropbox, etc.)
- Uploading photos or videos to Social Media
- Sending emails

Essential For:

- Remote Workers & Learners
- Multi-Device Homes
- Gamers
- Social Media Lovers

Our download and upload speeds are symmetrical, so you can get up to 1 Gigabit whether you are downloading or uploading!
